

10 Brick Generation by Ceramica Rondine (<http://www.ceramicarondine.it/en/>)

The wall and floor tiles of Brick Generation update the concept of brick-look tiles using vivid colours and textures inspired by cities including London, Venice and New York. The latter (shown) reproduces the chalky matte effect seen on the mansions of Brooklyn Heights.

BONUS: Stockholm by Ceramica Globo (<http://www.ceramicaglobo.com/lang-en/>)

Cersaie is more than just tiles: it's also a source for ceramic fixtures including toilets, bidets, and sinks – such as Claesson Koivisto Rune (<http://www.claessonkoivistorune.se/>)'s gently curved Stockholm collection.
