## The new Meeting Center

### GLOBO: A NEW MEETING CENTRE TO DISCOVER THE HOME OF DESIGNER CERAMICS

Not far from Rome, Ceramica GLOBO's brand new meeting centre has recently been inaugurated: a modern, minimalist structure housing a conference centre, showroom and multifunctional spaces. It covers an area of 600 m2, spread over two floors and displays all GLOBO's interior solutions - collections of bathroom fittings, bathtubs, furniture and accessories - focusing the attention on the brand new lines designed by Luca Nichetto, Giulio Iacchetti and Creative Lab +.

Business meetings and conferences alternate with cultural events and local initiatives.
